

### *1/2 Round 1/2 Octagon*

On 1/2 Round 1/2 Octagon barrels you will need to provide dimensions for all "lettered" items above.

### *Straight or Tapered Octagon*

A = Measurement Across Flats At Breech

B = Finished Length of Barrel

C = Measurement Across Flats At Muzzle

Note: If you need a Round section at the breech for threading, etc. You will need to provide the diameter of the round section and the length of the round section. This is typically part of the finished length of the barrel.
